## Welcome to the Anchor!

Welcome to our new refreshment collection!

We've got some epic international brands, plus local gems from our fabulous regional vineyards, food producers and breweries. In an age of tariffs and trouble, we've let our patriotism out of the bag!

Whilst not ignoring the world's finest wine & beer in all of its various styles and price brackets, we've given centre stage to as much British produce as we can find. With the wine, please forgive the slightly higher prices than some of the continental competition, that comes with the smaller batches and single vintage methods used, and the wines really are worth it. Watch out for the 

New, and we think well worth a try, are our real fruit purée splashes, which can be added to everything from Soda to Cider. An Improvement, we hope, on some of the artificial flavours and colours in so many drinks today adding an actual 1, or at least part of 1, of your 5 a day to the drink!

Also added to the list are 0.0% Estrella Galicia, the fabulous beer brewed in Spain with the alcohol taken out, the 4.7% full version and several other new treats. Of special note are Asahi, Levelhead & Peroni on draught as part of a range now increased to the very wide choice of 12 keg and 3 cask lines.

A few of these lines will rotate regularly to enable us to bring you interesting craft and niche products, so expect to see beers from brewers as diverse as Greene King, Morland, Camden Town, Estrella, Lervig, Duvel, Sierra Nevada, Beavertown, Tiny Rebel, and many others.

We also now have a large range of bottled beers, stout and ciders, with a focus on alcohol free, some gluten free and of course, some that pack a real punch on all fronts!

In soft drinks, we've added Bubble Tea and Iced Teas & Coffees to our ever-increasing range of interesting alternatives to regular tea & coffee and we now have some Decaff Coca Cola Zero Zero, for anyone struggling to sleep at night.

In short, something for everyone and we very much hope you'll enjoy the selection!
